Preparing you for the assessment centre

What you need to know before you arrive

What will the day look like?

- Individual Interviews
- Group Scenarios based on real work situations
- Meet & Greet with our Team

Each part is designed to see how you think, communicate, and work with others, not to catch you out.

Individual Interview

We're interested in **you**

Before the day, think about:

- Why you applied and what interests you in the role
- Key experiences and what you learned from them
(school, uni, work, life)

Pick 2-3 examples you can talk about confidently and practise explaining them out loud.

Group Scenario

We're not looking for one 'right' answer

What stands out is how you:

- Listen to others and acknowledge their ideas
- Share your thoughts clearly and calmly
- Help move the group toward a decision

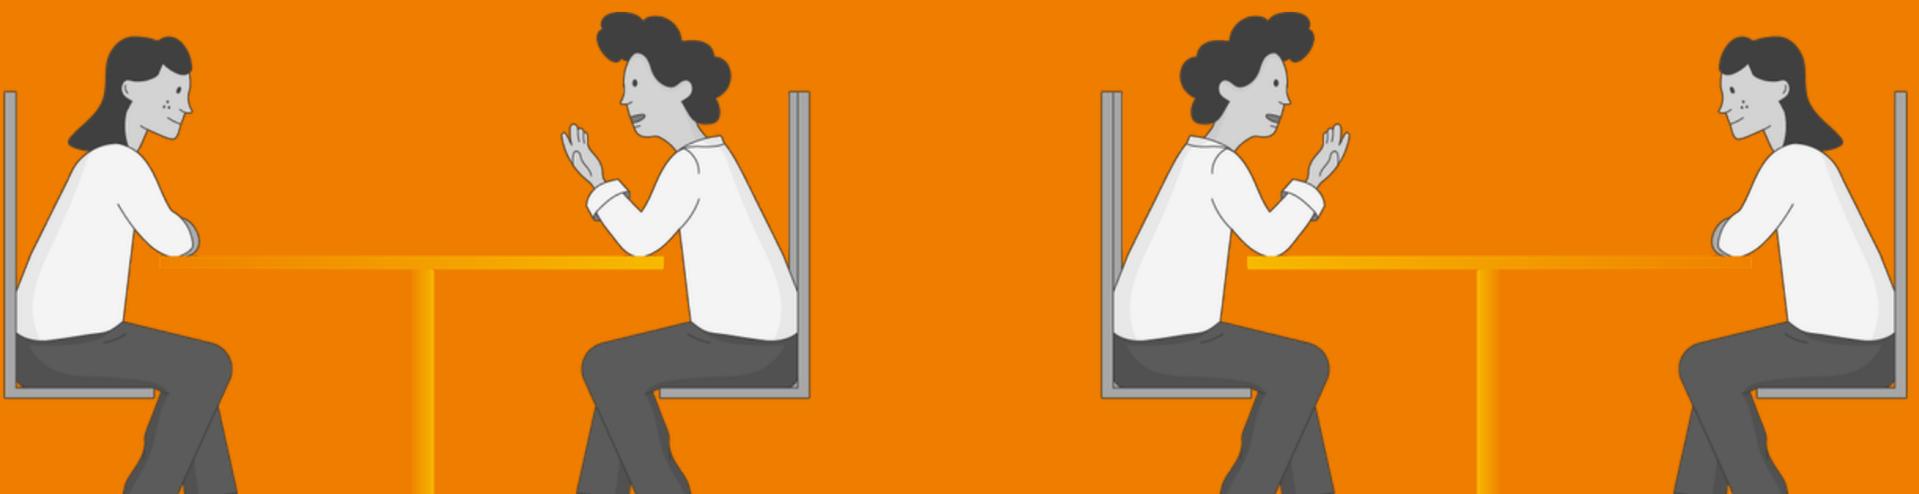

Meet the Team

You'll meet Managers, Partners,
and our People and Culture Team

Use this time to:

- Ask questions about the role or day-to-day work
- Understand the culture and team
- Show genuine interest

This is your chance to see if EQ's right for you too!

Final Advice

- Do a bit of research about EQ and the role
- Plan your journey and arrive in good time
- Get a good night's sleep

Small things make a big difference to how confident you feel.
