Our new and improved valve replaces the previous model shown here.

Torbeck® Fill Valve

Height Adjustable Bottom Entry

TECHNICAL DATA SHEET

- Bottom Entry WC Fill Valve
- Height from 273mm to 326mm
- Water level range 70mm
- Height adjustment of 53mm
- ½" BSP inlet connection (brass or plastic)
- Controlled flow throughout pressure range to ensure optimum fill and safety factors with pre-fitted restrictor
- Operating pressure range – minimum 0.1Bar* to maximum 10 Bar
*Restrictor must be removed for gravity fed systems
- Quiet filling
- Airgap compliant to AUK1 and Reg 4 as standard
- Meets requirements of the Water Supply (Water Fittings) Regulations, Byelaws in Scotland, as they apply to Type AG and Type AUK1 air gaps in WC suites and the interim agreement
- Meets BS1212-4 requirements
- Small footprint
- Easy installation and maintenance

Certification/compliance

- DL Datum level for vacuum test is indicated by a marked line on the valve body below the cap.
