

# MAKING A DIFFERENCE

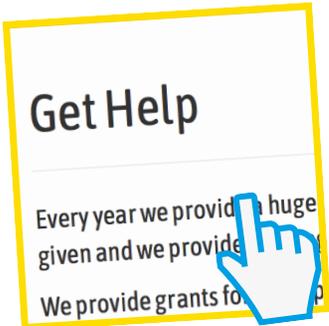

The ARCHIE Foundation funded a Brady Buggy for the Highland Children's Unit as a fun, safe way to transport children around hospital.

Depending on a child's age, a pram or wheelchair is not always suitable.

The Brady Buggy is a fun distraction and a good way to move children around HCU for tests and appointments.

# ALL ABOUT ARCHIE

The ARCHIE Foundation is a charity that makes the difference for local sick children when they are in hospital or require long-term medical treatment.

We're the official charity of the Highland Children's Unit. The NHS provides the most amazing care and we fund the much needed extras, such as:

- Child-friendly hospital spaces
- Enhanced staff training
- Specialist medical equipment
- Emergency financial support for families

Every year we provide grants to support children when they are sick.

We also support larger grants to allow services to develop and for advanced care to be given. We also provide training bursaries for nurses.

## FUNDING AVAILABLE FOR:

- Individual children currently in the care of the NHS
- Supporting families during extended hospital admissions
- Supporting NHS child health staff to undertake advanced training courses
- Funding specialist equipment
- Funding specialist staff posts
- Research into illnesses affecting local children
- Refurbishment or development of existing facilities

## PENNY'S STORY IS HELPING OTHERS

Penny was just eight when she was diagnosed with Transverse Myelitis, a rare condition that causes the body to attack itself.

She was paralysed from the chest down and the prognosis was not good. She spent months in hospital having intensive physiotherapy.

The ARCHIE Foundation provides the extras that help make a long stay in hospital as positive as it can be. Child-friendly spaces, toys and games, a lounge for parents.

Slowly, Penny regained movement throughout her body and learned how to walk and run again. Now a teenager, Penny is an ARCHIE ambassador, helping us help other families by sharing her story.
