We are an independent environmental charity committed to ensuring that everyone has the opportunity to experience Fife’s great outdoors.

Our head quarters are the Harbourmaster’s House in Dysart, which also houses the Coastal Centre and Bistro.

Welcome

As always I am delighted to introduce the Fife Coast and Countryside Trust’s Annual Report. I take great pride in sharing just a flavour of highlights of another extremely busy year for the Trust.

In 2018, the Board of Management welcomed two new board members – Rhona McInroy from Scottish Natural Heritage and Cllr Jan Wincott from Fife Council. Dr Kath Leys has retired after serving on the Board since the Trust’s inception. We thank Kath very much for all her enthusiastic support, counsel and direction whilst giving the Board her loyal service.

Our highlight in 2019 will be the official opening of the Fife Pilgrim Way. This will take place on 5th July, with a series of launch events. The route and waymarking are in place with just some pathworks, drainage and gates to be completed at St Ninian’s opencast site. The interpretive elements which will enhance the walking experience are well underway and they will be installed prior to the launch date.

The year has not been without its challenges, as Fife Council, our main funder, has experienced financial pressures, which has seen a reduction in our core funding. In response to this, the Trust has trimmed its staffing and also restructured in an effort to manage costs.

In addition, the wider funding environment has seen significant changes to both the Heritage Lottery Fund and European Funding. The Trust will continue to explore alternative funding sources and to work in partnership with communities and organisations such as St Andrews Links Trust and others, to manage sites for the benefit of locals and tourists and the economy of Fife.

I would like to take this opportunity to congratulate our staff and volunteers, whose dedication and commitment has seen the Trust receive a number of awards this year. The Loo of the Year awards saw the Trust win 6 National Category awards and also the UK and Ireland Trophy. While 14 beaches along Fife’s Fringe of Gold retained the Keep Scotland Beautiful Beach Awards, the most for any region of Scotland with a cumulative total of 196 years! The West Sands at St Andrews alone has held the award for 25 years!

In closing, I would like to thank you, our reader, for your ongoing interest and support in the work of the Trust and we hope you will have many future opportunities to enjoy outdoors Fife and in particular the newly opened Fife Pilgrim’s Way and the Fife Coastal Path.

S Carter, OBE
Chairman
21st June 2019

Report from the Board of Directors

Structure, Governance and Management Governing Document

The Trust is a company limited by guarantee without share capital and is as such governed by the terms set out in its Articles of Association.

Organisational Structure
The Trust is governed by a Board of Directors. The Board meets at least quarterly and is responsible for the strategic direction and overall management of the Trust. There are 2 sub-committees of the Board, HR & Remuneration and Audit & Finance. These sub-committees also meet at least 4 times per year. In line with good governance principles for charitable organisations, the Board of Directors receive no remuneration from the Trust for their involvement and give of their time and effort voluntarily. The charge and responsibility for running and operating the organisation’s services on a day to day basis is delegated by the Board to the Chief Executive Officer (CEO) supported by a management team.

The last complete salary review was undertaken in 2012. The HR & Remuneration Sub Group, comprising the Chairman and 3 other Board Members will consider any significant adjustments and may agree remuneration within the context of the annual budgeting process. All new posts are graded with the support of Morag Moffett, Partner Burness Paull LLP.

Recruitment and Training of Board Members
The Trust has an induction procedure in place for new Directors. Specific training is made available to directors as and when required. The Trust ensures all directors have a subscription to Governance Magazine to ensure they are aware of current practices and legislative changes.

The Board is made up of the following types of directors:

- Member directors - up to 4 appointed by Fife Council;
- Partner directors - maximum of three. One representing each of the following organisations Scottish Natural Heritage, Forestry Commission Scotland and Keep Scotland Beautiful;
- Independent directors - a maximum of 7 directors, appointed to provide specific skills and knowledge to the Board.

Fife Council is the sole member of the company and as such makes the final decision on the appointment of directors to the board of Fife Coast and Countryside Trust. Recommendations for the appointments are submitted to Fife Council from a nominations committee made up of the Chairman of Fife Coast and Countryside Trust, the Vice Chair and the Chief Executive.
Objectives and Activities
The objectives of the Trust are wholly charitable. They are defined in the Articles of Association and are:

To provide recreational facilities, and organise recreational activities, primarily within the local authority area of Fife Council ("the Operating Area"), with such facilities/activities being made available to members of the public at large with the object of improving their conditions of life, including (without prejudice to that generality) promoting and improving access to the countryside within the Operating Area, and through providing, developing and improving the facilities which support access to the countryside and the wildlife within the Operating Area;

To advance education, primarily within the Operating Area, including through encouraging public access to the countryside, and its wildlife, which shall include the provision of interpretive centres, signage and other methods of conveying information;

To advance environmental protection and/or improvement through the conservation, preservation and general improvement of the countryside and the landscape within the Operating Area and through securing the sustainable use, management and enjoyment of the countryside and the landscape within the Operating Area;

To advance heritage and/or culture within the Operating Area;

To advance citizenship and/or community development, in particular, within the Operating Area; and

To promote, establish, operate and/or support other similar schemes and projects which further charitable purposes.

Investment Powers
Under the Articles of Association, the Trust has the power to invest any funds which are not immediately required for the Trust’s activities in such investments as may be considered appropriate.
The Fife Coastal Path

The Fife Coastal Path, the longest coastal path in Scotland, stretching for 117 miles from Kincardine on the Firth of Forth, to Newburgh on the Firth of Tay, offers a range of walking experiences from easy to wild and demanding. The route continues to grow in popularity with visitors drawn from across the UK, Europe and beyond.

- Ranger Lyn Strachan joined the ranger team looking after the Fife Coastal Path, with responsibility for the Kincardine to Dysart Section. Previously Lyn had responsibility for managing inland sites and working with communities across West Fife.

- There has been a concerted effort to remove old fishing gear and creels along the North Sea coast. This was a great success with landowners, golf courses and individual groups all helping to remove many items of fishing gear.

- This year more than 107 beach cleans have been undertaken along the Fife coastline, including fortnightly beach clean at West Sands, St Andrews.

- New beach access steps were placed at Balmerino by FCCT to allow residents, visitors and school children to access their beach. The last steps were washed away two years ago. The new steps were provided in recognition of a very supportive community with a simple need.

- The coast of NE Fife is strung with fantastic and world class golf courses, FCCT are working with the four course managers to trial and rationalise the ‘walking signage’ placed by individual courses along route. This should create a better understanding between golfer and walker and assist in good access for all.

- New access steps and barriers to allow for better and safer beach access from the car park at Kingsbarns.

- A new Fife Coastal Path map has been developed. Sterling Maps who produce the map donate 75p to the FCCT for every map sold.

- FCCT Rangers working with St Andrews Links Trust installed a gate at the Castle Course boundary to assist volunteers to manage Craig Hartle Sites of Special Scientific Interest (SSSI).

- A number of charity groups used the Fife Coastal Path to raise awareness of their causes and to raise funds.

Photo Courtesy Hamish Johnstone
Path Provides a Charity Challenge

The Fife Coastal Path (FCP) provides a challenge for walkers from across the world. Individuals and charities utilise the route to raise funds and awareness of their causes.

In 2018 this included Sarah Brown, Kathy Lette, Arabella Weir and Debbie and Sandi Toksvig who were raising funds for Theirworld a charity set up by Sarah Brown, to create global change by bringing better health and education to the most vulnerable children. They were welcomed to Harbourmaster’s House, by Bill Taylor, Vice Chair of the Board of Management of Fife Coast and Countryside Trust.

Other charities who staged events on the FCP included the Kilt Walk and Tommy’s Honour Education Trust.

William Lumsden and his son Reece walked from Whitburn to St Andrews to raise awareness and funds for Tommy’s Honour Education Trust, who have developed ‘Learn from the Legacy’ programmes to combine fun, imaginative golf-themed games with problem-solving literacy and numeracy.

The staff at Harbourmaster’s House were delighted to provide first aid, sustenance and support when these groups stopped off in Dysart.
The Fife Pilgrim Way

The Fife Pilgrim Way (FPW) project is progressing towards completion, as the official launch took place on 5th July 2019. The path works, sign posting and waymarking are all but complete with just some minor works to be done now that the restoration agreement at St Ninian’s has been signed.

Our focus is now very much on delivering the interpretive elements of the project, enhancing the walking experience for those many thousands of walkers that will walk the route. Eskimo Design, Differentia and the FCCT Team are working to deliver eight orientation panels, nine cast metal discs and four stone rest points to be sited along the route. Other interpretive elements include a free leaflet, companion book, pilgrim passport, walking map and FPW merchandise.

- Working in partnership with Fife Cultural Trust, a travelling exhibition entitled 'The Pilgrim Express' is being developed, which will tour in Mac – Fife's Mobile Museum for the next two years.
- The FPW project has provided the opportunity to merge the Trust's current web presence into one combined website, which will include an enhanced opportunity for income generation.
- Three FPW Business Breakfasts were delivered in Dunfermline, St Andrews and Markinch to engage with business owners across Fife.
- A total of 86 participants/business people attended the FPW business breakfasts.
- At the request of community groups, we have delivered 25 outreach talks to over 840 people.
- The Trust worked with pupils from Markinch Primary School, volunteers from Taylor Wimpey and Kinross Rotary Club, to plant a total of 130m of hedging to create two wildlife corridors at Markinch and Kelty.
- In 2018, we held twenty five FPW community events attracting over 1000 participants.
- FCCT Staff and representatives from Ramblers Scotland took part in a Path Condition Survey Course delivered by FCCT at Lochore Meadows Country Park.
- Amendments to the route near Markinch have been completed, with a new off road route to the east of the village and a minor adjustment to the route to use Gibbs Close being adopted.
Now the restoration agreement is in place for St Ninian’s opencast site, the required short-term essential works required to open the route including the installation of gates, path works, vegetation clearance and drainage can go ahead.

Funding has been secured for the development of Finglassin’s Well, Kinglassie. Re-creating the well-head in the medieval style will celebrate the heritage of the site whilst creating a quiet place for locals and a point of interest for visitors to the FPW.

The Trust is working in partnership with Hargreaves to upgrade the path through St Ninian’s opencast site.

Seven gateway interpretive panels were installed at key locations along the route.

Four sites have been identified as rest points, where large boulders with etched designs have been placed.

Nine bronze footstep features have been installed at points along the route. In the future we may utilise them as part of a digital gamification of the route.
The Lomond Hills Regional Park is the most visited page on the Fife Coast and Countryside Trust website, with 13,236 visits, which equates to 12.60% of all visits to the website.

Total value of the project £758,551 made up of £645,513 cash; £113,038 in-kind and volunteer contributions from organisations and individuals and with added value of c £40,000 for works over and above those laid down in the project brief.

- 3.2km of new paths constructed.
- 18.4km of paths improved and brought into a management plan.
- 15 finger-posts installed.
- 176 waymarkers installed.
- 20 trainees given training opportunities with Fife Pilgrim Way contractors. Two work placements per week were provided alongside our contractors during the walling at Ceres and the cobbled path work at North Queensferry.
Fife Pilgrim Way - Back in the Habit

A community archaeology dig took place at Inverkeithing Friary Public Gardens, which was once the site of a Franciscan Friary. The dig was led by archaeologists from Northlight Heritage, with input from Douglas Speirs, Fife Council’s Archaeologist.

Twenty seven volunteers took part in the dig which took place in September 2018, digging four trenches across the site in an effort to locate the site of the Franciscan Friary. The volunteers were taught excavation techniques, site recording, photography and scale drawing. Finds include a range of medieval pottery, animal bone, shells and metal objects such as nails. The most exciting discoveries were the remains of the southern wall of what is likely to have been the northern range of the Friary, possibly the Friary Church and also evidence of a possible sandstone floor.

The site proved a popular visitor attraction with regular visits from local people, and pupils from Inverkeithing Primary School were given an introduction to archaeology. An open weekend saw around 220 visitors, enjoy site tours and also demonstrations of medieval crafts such as wood turning, wool dying and chain making from Medieval Methil, a historical re-enactment group.

Northlight Heritage gave a follow-up talk for volunteers and the local community to share information on the finds uncovered during the dig.
Beaches

Fife’s coastline is often described as ‘The Fringe of Gold’, and is managed by Fife Coast and Countryside Trust. With fourteen award winning beaches, along with many other secluded and tranquil sites, Fife’s coastline offers different seaside experiences. The Trust works tirelessly with local communities and other organisations to maximise the quality of the public experience at these beaches and to encourage people to enjoy them while respecting their conservation value.

- Loo of the Year Awards 2018, achieving two platinum grades, eight gold grades and two silver grades. Six national category awards and the Local Authority Entries UK and Ireland Trophy for the facilities at Harbourmaster’s House, Dysart.
- Volunteers carried out 107 litter cleans.
- The ‘New Dunes for Old Trees’ project entered its fourth year with 400 Christmas trees donated in 2018.
- Fife Coast and Countryside Trust are delighted to announce that Fife has retained its title as the Scottish region with the most beach awards. The Trust manage 14 award winning beaches around the Kingdom of Fife.
- New Service Level Agreement between FCCT and St Andrews Links Trust at West Sands was launched in July 2018.
- A new conservation volunteer group the ‘Coastal Volunteers’ has been set up on West Sands, meeting once a month to carry out conservation tasks.
- A 19-year-old crisp packet found on West Sands, St Andrews, by and FCCT Volunteer triggered much discussion on social media and in the press.

Pollution Incidents Causes Concerns Along the Fife Coastline

A number of incidents of pollution have occurred along the Fife coastline this year. The most significant is an oil spillage which took place on the 18th February at Limekilns, Redrow and Bruce Haven Bay, which necessitated a clean-up operation led by SEPA and Fife Council. The beaches were closed for several weeks and the Fife Coastal Path was diverted to allow the clean-up to take place.

It is estimated that 2 tons of oil had landed on the beaches. In addition to this, Limekilns Harbour was also contaminated. By 11:30 on the 19th February, the process of transferring the contaminated sea weed and sand from all contaminated sites to a temporary holding area (Limekilns Beach Foreshore) had started. This process lasted for 4 days. Thereafter, the waste had to be assessed for toxicity levels prior to the transfer to a permanent tipping site in Avondale (Falkirk). The remaining contaminated sand on the beaches had to be flushed with sea water for over 2 weeks to remove the oil with an estimated 12 tanker loads a day having to be used for this process.

Around 600 tonnes of contaminated seaweed and sand were removed from the affected beaches and disposed of in a specialist facility in an operation costing an estimated £800,000.

Staff from FCCT supported the clean-up operation, with Robbie Blyth being on site for 12 days to help with the initial response, public liaison and to deal with the various contractors on behalf of Fife Council. Other members of FCCT staff provided support and overnight security.

Despite investigations by SEPA, the Marine Coastguard and Forth Ports, the source of the pollution has not been identified.

Palm Oil Washed up on Fife Beaches

There have also been a number of incidents of palm oil washing up along Fife’s beaches. Large lumps of palm oil have been found on beaches including the West Sands. Dog owners were warned to keep dogs under close control, as if they eat palm oil they can become seriously ill.

Ranald Strachan, a Countryside Ranger for Fife Coast and Countryside Trust, urged anyone who finds the waste product to report it without delay.

He said, 'Because the waste is organic and smells, dogs are likely to eat it and it’s the bacteria that is on the waste that proves harmful to pets.'

Facebook posts about this topic had a reach of around 200,000, the largest of any Trust post in 2018/19.
In 2018, Fife Coast & Countryside Trust entered into an innovative agreement with the St Andrews Links Trust to provide a dedicated Ranger Service on West Sands in St Andrews. The service was formally launched on 31st July 2018, to coincide with World Ranger Day. The aim of the on-site Ranger team is to improve the visitor experience by reducing the impact on the site from anti-social or inappropriate behaviour, to protect and enhance the natural environment and advise and support the St Andrews Links Trust to realise their environmental aims and objectives.

### West Sands

Regular visitor engagement patrols have been carried out on the beach and car park areas.

A series of public events, including nature walks and “Meet the Rangers” sessions have been held.

A new Coastal Volunteer Group has been set up on West Sands, meeting once a month to carry out conservation tasks.

Twice monthly volunteer beach cleans have helped reduce the impact of marine waste on the environment.

Volunteers have contributed more than 400 volunteer hours at West Sands.

SRUC Elmwood Countryside Management students worked with West Sands Rangers to replant an area of sand dune with marram grass.

Rangers have engaged with over 200 students through educational visits from schools, colleges and universities.

Rangers have carried out enhanced ecological surveying of the West Sands and St Andrews Links Golf courses.

Environmental enhancement projects are being carried out in conjunction with the St Andrews Links Trust, including the installation of a butterfly bank at the Castle Golf Course.
Project Updates

National Flood Management Guide

The West Sands Dune Restoration and Ecological Enhancement Project is now being promoted as a case study and demonstration site by Scottish Government, SNH and SEPA. The latter has included the site in its National Flood Management guidelines handbook in 2018.

As a result of this, the project received site visits from SNH and Dundee City Council who are investigating innovations in dune management with a view to replicating the project at other sites.

Sand Restoration Activities

Sand Dune Restoration project continues into its latest phase. The new ‘Clavicula’ style access point dunes placed in 2018 have been planted up by Fife Coast and Countryside Trust Rangers and volunteers, with marram and lyme grass holding sand well.

Further improvements to the dune front and access points to prevent flood damage and improve access are planned for 2019/2020.

Four hundred Christmas trees were donated towards the ongoing Old Trees for New Dunes project. Thirty volunteers then placed the donated trees into a large crater in the dunes and this will be covered with sand under the next phase of dune restoration. Thus healing a large wind scoured and degraded dune area.
Volunteering

Fife Coast and Countryside Trust Volunteers contributed a staggering 7735 volunteer hours in the last calendar year. We are grateful to all who offer their valuable time assisting us, to present Fife’s coast and countryside in the best possible light. The number of individual, community and corporate volunteers continues to grow annually.

Volunteering opportunities include practical conservation activities such as tree planting, woodland work, hedge laying, invasive species removal, photography, building nesting platforms and repairing walkways, beach cleans and litter picks, gathering and managing information and working directly with our Fife Coast and Countryside Rangers. We currently have regular ranger-led volunteer groups that meet at different sites across Fife on a monthly basis.

Many businesses chose to support the Trust as part of their corporate social responsibility activities, by encouraging their staff to take part in environmental activities and also raise funds for conservation projects on sites managed by the Trust.

- Inspired by David Attenborough’s ‘Blue Planet’, individuals, community groups and corporate volunteers have undertaken 107 beach cleans, supported by the Trust.
- Students from SRUC Elmwood Campus took part in 2 ranger-led events focused on the Scottish Outdoor Access Code and developing coppicing skills.
- Pitcairn volunteers planted 20 young oak trees to help regenerate the ancient woodland of Craighall Den.
- FCCT, Fidra Trust, North Queensferry Community Council and 30 volunteers removed in excess of a million nurdles from North Queensferry Beach in one day.
- Sky, Lloyds Banking Group and Nationwide Building Society have supported the Trust through regular volunteering activities throughout the year.
- Volunteers worked to clear Dumbarnie Links Sand Dunes of Rosa rugosa, an invasive species, which impacts on the biodiversity of the dune system and also its stability.
- SRUC Elmwood Countryside Management students worked with West Sands Rangers to replant an area of sand dune with marram grass.
- Staff members from various Lidl stores took part in 4 beach cleans in one day to raise awareness of environmental issues and to raise funds for the STV Children’s Appeal. They carried out beach cleans at Seafield, Pathhead, Ravenscraig and Leven Beaches.
Total volunteer hours 1st April 2018 to 31st March 2019 = 7735
Table below shows breakdown by volunteer type.
The Maintenance Team are responsible for the care and maintenance of the Fife Coastal Path, inland sites and beaches. They have also supported the development of the Fife Pilgrim Way. Yearly maintenance activities of our sites consists of grass cutting on paths 4 or 5 times a year, cutting back overhanging branches and hedges in the winter, clearing and renewing drains, laying materials to maintain path surfaces, spraying weed killers and dealing with fallen trees. Other areas of responsibility include litter picking, dealing with fly tipping, maintenance of toilet blocks and emptying litter bins at car parks.

- The Maintenance Team repaired Crawhill Bridge, Anstruther, which had fallen into a poor state. The Core Path is part of the National Cycle Network and also a safe route to school (Waid Academy) and was seen as a priority for an upgrade. Funding was provided by Fife Council Transportation Services and the Maintenance Team completed the work over a 2 day period during the October school holidays.

- The Trust was recognised in the Loo of the Year Awards 2018.

- A new community toilet was opened at Pitcairn.

- Large beach clearance of rubbish at Crail took place with help from Community Pay Back.

- Number of new gates installed including Kincaple, Harperleas and Eden Estuary Centre.

- Replacing a stile at Kingsbarns to facilitate a minor change to the Fife Coastal Path to avoid dangerous sections of the golf course.

- A new handrail and posts have been installed at Kingsbarns to improve beach access and to stop traffic impeding access to the beach and lifesaving equipment.

- Fife Coastal Path interpretation panels have been refurbished at Leven, St Andrews and Dalgety Bay.

- Signage has been renewed or refurbished at Shell Bay, at sites in the Lomond Hills including Craigmead, East Lomond and on the Leslie to Falkland road.

- Spraying of invasive species has taken place at Seafield, Pathhead, Cameron Reservoir, West Wemyss, East Wemyss and St Monans.

- Staff development for the Maintenance Team included chainsaw certification for 2 members of staff and trailer training for 2 members of staff.

- Path works have been completed at Bloodyfoots and Kilminning.

- The Maintenance Team were responsible for installation work at West Sands Ranger Base including fencing, decking and digging trenches for electric and phone cables.

- Revetment works were carried out at St Andrews and Kincaple.
Trust Flushed with Success - Loo of the Year Awards 2018

Representatives from Fife Coast and Countryside Trust (FCCT) attended the annual awards ceremony for the Loo of the Year Awards 2018, held in Birmingham. The Trust were delighted to be awarded six National Category Awards, the Public Toilet Entries Awards for Scotland and the Local Authority Entries UK and Ireland Trophy for Harbormaster’s House, Dysart.

The Trust manages 13 public toilets on behalf of Fife Council at sites across Fife, all of which received recognition in the Local Authority Public Toilet Awards category – achieving two platinum grades, eight gold grades and two silver grades in the Loo of the Year Awards 2018.

Every entry received an unannounced visit from a Loo of the Year Awards Inspector and was assessed against 101 judging criteria – including signage, décor, fixtures and fittings and overall standards of cleanliness and management.

Stephen Carter, Chairman of the Board FCCT, commented, “To gain so many accolades in the National Award Category, recognises the work and commitment of both our full-time and seasonal staff in maintaining these facilities to a high standard. This adds hugely to the visitor experience, for the many thousands of people who visit our sites annually.”

Cllr Judy Hamilton, Convener - Community and Housing Services Committee said: ‘With depleted resources, authorities around the country are finding it difficult to keep and maintain public toilets. I’m proud that the facilities we do have in Fife are recognised as being of such high quality and want to thank all the Trust staff who work hard to provide this service for the public.’
The second Access All Areas – Fife’s Festival of the Great Outdoors took place from the 6th - 21st October. From relatively small beginnings, the Festival has now grown to include more than 50 events delivered in conjunction with 17 partner organisations at locations across Fife.

Our aim was to improve outdoor activities, leisure and cultural opportunities within Fife along with generating positive social and economic impacts for the area, to provide additional opportunities at the shoulder of the tourism year.

Events took place at various locations throughout Fife, helping to extend our tourism season by providing an innovative outdoor offering.

Fife Coast and Countryside Trust staff delivered twenty eight of the 50+ events, with events ranging from an opportunity to explore the Wemyss Caves, to a NNAS Navigation Course in the Lomond Hills, which equipped walkers with a recognised qualification in navigational and map reading skills.

We offered a total of 4,185 event spaces, this included partner events and volunteering opportunities running across Fife. Bookings increased by 300% on the previous year with a total of 2,026 attendees. With over 50% of our events running at capacity, these were predominately running, experiential or specialist learning opportunities.
Events

- 40th Anniversary Open Day
- Burntisland Beach Clean Day
- Get Out and Get Involved – 3 Volunteering Days
- Nutcracker Trail Races – 2 Events
- Magical Lanterns at Formonthills
- Fungal Foray Lochore Meadows
- Improving our Wetland Oasis – Volunteering Day
- Sandy Hands and Coastal Wander
- Dysart Walking Tours – 2 Events
- Autumn Woodland Walk
- Seashell Safari
- Make Your Own Shave Horse
- Mad Hatters 5 Km/Marathon/Ultra Marathon
- West Sand Big Beach Clean
- Coastal Walk – Peerie Whaups and Watery Peeps
- Fife Cycle Park – Family Fun Day
- Learn to Build a Dry Stone Wall
- Seal Spectacular
- NNAS Navigation Award Course
- Autumn Apple Event
- Photograph Competition
- Bums Off Seats - Guided Walks
Local Nature Reserves

Fife Coast and Countryside Trust manages four Local Nature Reserves - Eden Estuary, Coul Den, Dalbeath Marsh and Birnie and Gaddon Lochs. Local nature reserves (LNRs) are varied environments and include - woodlands, wetlands, meadows, or coastal sand dunes. They provide wild spaces where plants and animals, both common and rare, can thrive. In particular, LNRs also offer unique opportunities to explore or study your local nature, or to simply enjoy a gentle walk.

We maintain the paths and features throughout the 4 sites we manage, and help users learn about and enjoy them through interpretation and events. 2018 was a landmark year for the Eden Estuary LNR as it celebrated its 40th anniversary.

- 40th Anniversary of Eden Estuary was marked by a celebratory event held in September. Many organisations who have been involved with the nature reserve over the years came and supported the event.

- An ‘Outdoor All Ability’ telescope has been purchased to commemorate the Reserve’s 40th anniversary and the passing of some of the ‘founding fathers’ of the reserve in recent years. The telescope has been funded by generous donations from organisations and individuals involved with the reserve.

- Twenty three members of the public enjoyed a Winter Tree Identification Walk at Birnie and Gaddon Loch.

- A new bird feed bin initiative has been launched at Coul Den and Birnie and Gaddon Lochs. A local company donated bird seed, which is available for members of the public to distribute around the sites.

- Scottish Natural Heritage (SNH) recognised the work done at SSSI Dalbeath Marsh by Ranger Lyn Strachan, the FCCT Maintenance Team and volunteers. They commented that, ‘The site is in a far more favourable condition than it was 10 years ago.’

- The Eden Centre continues to fulfil its role as a key bird watching centre with just under 2000 visitors in 2018 and 9 educational visits held there.

- The Eden Estuary is to feature in a new Scottish Ornithological Club Mobile App, which highlights it as a nationally important site to visit for birdlife and bird watching.

- Monthly Wetland Bird Survey (WeBS) counts take place at 11 sites managed by the Trust. Birding highlights include a Spoonbill, good numbers of Sanderlings, Little Egret, Great Skua, Kingfisher and 7600 Pink footed Geese.
Eden Estuary Management Plan
The 2018-2023 Management Plan was completed and agreed on this year. It contains objectives on education, conservation of species and provision of access and enjoyment for the next 5 years. Included in this review was the updating by the Scottish Government of the Eden Estuary bye-laws. These vital bye-laws protect and preserve the reserve, and the rights and responsibilities of all who use it.

Eden Estuary - Biodiversity Updates
Reintroduced White-Tailed Eagles were noted within the reserve in 2018. Osprey numbers are steadily climbing with these birds present now all summer. Migrating wader and wildfowl numbers are decreasing at levels noticed elsewhere within the Tay/Eden complex and along the North Sea coast. Otter sightings along the River Eden have jumped significantly in 2018 with new holts established locally.

Rangers Take to the Water
Rangers, Bryan and Nicola took to the water at Birnie and Gaddon Lochs to carry out routine maintenance and to check for signs of water voles, otter and mink.

Their main objective was to inspect and clean out the large barrel, which sits on the island on Birnie Loch. The barrel will hopefully be occupied anytime from late March by the arrival from Africa of one of Scotland’s earliest migrants, the Sand Martin, Riparia riparia.

The Sand Martin is smaller than a Swallow, with only a slight fork in the tail. It will breed in colonies and prefers the vertical edges of sand banks and quarries which are near to rivers or lochs. Their diet consists of insects, including midges, flies and aphids, which it catches on the wing.

A breeding pair will nest in the artificial holes dug into the barrel, making a nest of grass at the far end. Depending on the weather, a female may have 2 broods of 4-5 eggs, incubated for 14-15 days, but not always with the same partner. Around 22 days later these young will fledge the burrow nest and spend the rest of the summer discovering the local area, before heading south, back to Africa in August.
Lomond Hills Regional Park

The Lomond Hills are Fife’s most prominent landmarks, located in the heart of the Lomond Hills Regional Park which was designated as Scotland’s first Regional Park in 1986 in recognition of its importance for recreation and conservation. The 25 miles² area is made up of moorland, farmland, forestry and lochs, with numerous access points and a huge network of paths. It is rich in archaeology and geological features.

The Regional Park is supported by the local community; including land managers, users, community councils and other interested organisations. The support of the many land managers is essential to keep the park open and accessible to the public.

- Site Condition Surveys to monitor core paths within the Lomond Hills Regional Park are carried out on a quarterly basis. Necessary repairs/improvements are then carried out by the FCCT Maintenance Team.

- Wetland Bird Survey (WeBS) carried out on a monthly basis at seven sites within the LHRP at Birnie, Gaddon, Harperleas, Ballo, Holl, Drumain and Coul Reservoirs.

- Trail races contributing to the work of the Trust, with PB Timing contributing £276 to the Trust in return for the opportunity to race in the stunning, yet challenging, terrain of the Lomond Hills.

- Camera traps are being used to record and monitor wildlife across the Regional Park.

- The Lomond Hills Regional Park continues to be one of the most visited pages on the Trust website with a total of 10,754 visits, 8.58% of all page views on the Trust website.

A Foothold in Fife

The Lomonds Hills are the biggest area of heather moorland left in Fife. They provide a vital habitat for Fife’s population of Red Grouse. Populations of Red Grouse have been recorded on East and West Lomond and also Benarty Ridge, with wintering populations being recorded at between 50 and 100 birds.
Visitor numbers to the Lomond Hills continue to grow. The table below demonstrates visitor growth over a 4 year period (3 sample people counters demonstrate an upwards trend).
Business Development

The number of visitors to the sites managed by the Fife Coast and Countryside Trust continues to grow, putting pressures on the Trust to maintain the sites for our current users and for generations to come. This, combined with a challenging operating climate, necessitates the need for innovative approaches sourcing alternative funding.

- In February 2018, an online shop was launched on the Fife Coastal Path website. Guide books, maps, certificates and branded merchandise have proved popular with goods selling well.

- A new business engagement model was launched at a series of Fife Pilgrim Way Business Breakfasts. Local businesses can promote their services on an interactive map of the route on the Trust’s website.

- Eighty four representatives from local businesses attended business breakfasts held in Dunfermline, St Andrews and Markinch. The breakfasts were designed to raise awareness of the potential business opportunities offered by the Fife Pilgrim Way.

- Businesses continue to support the work of the Trust through membership of the Big Green Footprint Scheme.

- Participants in FCCT events promoted through Eventbrite are encouraged to give a donation to support the work of the Trust. We are developing a donation culture by including a donation facility on all of our digital platforms and via our online booking site.

- Access All Areas 2018 was expanded to include working with 19 partner organisations.

- A staff vote at our local TK Maxx/Homesense store awarded Fife Coast and Countryside Trust £800 to carry out environmental clean-up activities, in response to an application submitted by the Trust.
The new website will provide the opportunity to develop the FCCT online retail presence with our focus being to create branded merchandise for the Fife Coastal Path and Fife Pilgrim Way. We are engaged in talks with Fife Cultural Trust to develop promotional merchandise and to retail each other’s merchandise.

The launch of the new FCCT website, with expanded potential to generate income through links with local businesses.

Fringe of Gold Beach Cleans – chosen as part of Tesco’s Bags of Help Scheme in May 2019.

The Trust continue to develop further income streams including outdoor learning, memorial trees and more recently looking at the increasing Cruise Ship clientele market.
Financial Review

The Statement of Financial Position of the Trust as detailed on page 36 shows net assets of the Trust of £1,304,289 at 31 March 2019. The deficit for the year is detailed in the Statement of Financial Activities on page 35. It should be noted that the actuarial loss of £142,000 on the Trust’s pension liability this year had the effect of increasing the deficit for the year; without this adjustment, the deficit for the year would have been £26,127.

Financial Risk Management Objectives and Policies
An assessment of all risks, in particular those related to the operations and finances of the Trust, is undertaken regularly by the Board. Risks are analysed, quantified and prioritised and actions and responsibilities identified to minimise or mitigate these risks. This results in the production of a risk register which is reviewed regularly by the Board. It is also a standing agenda item at all Audit and Finance subgroup meetings as well as being discussed at all meetings of the HR and Remuneration subgroup.

Investment Powers and Policy
Under the Articles of Association the Trust has the power to invest any funds which are not immediately required for the Trust’s activities in such investments as may be considered appropriate.

Reserves
Unlike some other Trusts in Fife, Fife Coast and Countryside Trust has no means of increasing its incoming resources through charging for entrance fees or access to the countryside. Because of this and the future uncertainty regarding the levels of funding coming from Fife Council, the Directors have agreed that the current level of reserves should be maintained to enable the Trust to meet any potential future commitments which may occur in the next twelve months.

The statement of financial position of the Trust shows an unrestricted fund balance of £709,044, of which £571,000 has been designated for particular future commitments. Details are given in note 27 to the accounts.

Trustees’ Responsibilities Statement
The trustees, who are also directors for the purposes of company law, are responsible for preparing the trustees’ report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the charity trustees to prepare financial statements for each year which give a true and fair view of the state of affairs of the charitable company and the incoming resources and application of resources, including the income and expenditure, for that period.
In preparing these financial statements, the trustees are required to:

- Select suitable accounting policies and then apply them consistently;
- Observe the methods and principles in the applicable Charities SORP;
- Make judgments and accounting estimates that are reasonable and prudent;
- State whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in business.

The trustees are responsible for keeping adequate accounting records that are sufficient to show and explain the charity’s transactions and disclose with reasonable accuracy at any time the financial position of the charity and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charity and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**Auditor**

**Statement as to disclose to our auditors**

Each of the persons who is a director at the date of approval of this report confirms that:

- So far as they are aware, there is no relevant audit information of which the company’s auditor is unaware; and
- They have taken all steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company’s auditor is aware of that information.

The auditor is deemed to have been re-appointed in accordance with section 487 of the Companies Act 2006.

The trustees’ annual report (incorporating the directors’ report) and the strategic report were approved on 21 June 2019 and signed on behalf of the board of trustees by:

S Carter
Chairman
Independent Auditors Report

Opinion
We have audited the financial statements of Fife Coast and Countryside Trust (the ‘charity’) for the year ended 31 March 2019 which comprise the statement of financial activities (including income and expenditure account), statement of financial position, statement of cash flows and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- Give a true and fair view of the state of the charity’s affairs as at 31 March 2019 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- Have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- Have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for Opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor’s responsibilities for the audit of the financial statements section of our report. We are independent of the charity in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC’s Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions Relating to Going Concern
We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- The trustees’ use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- The trustees have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the charity’s ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.
Other Information
The other information comprises the information included in the annual report, other than the financial statements and our auditor’s report thereon. The trustees are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- The information given in the trustees’ report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- The trustees’ report has been prepared in accordance with applicable legal requirements.

Matters On Which We Are Required To Report By Exception
We have nothing to report in respect of the following matters where the Companies Act 2006 and the Charity Accounts (Scotland) Regulations 2006 (as amended) requires us to report to you if, in our opinion:

- The information given in the trustees’ report is inconsistent in any material respect with the financial statements; or
- The charitable company has not kept proper and adequate accounting records; or
- The financial statements are not in agreement with the accounting records and returns; or
- We have not received all the information and explanations we require for our audit.
Responsibilities of Trustees
As explained more fully in the trustees’ responsibilities statement, the trustees (who are also the directors for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charity or to cease operations, or have no realistic alternative but to do so.

Auditor’s Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (UK), we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.
Use of our Report

This report is made solely to the charity’s members, as a body, in accordance with section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and Regulation 10 of the Charities Accounts (Scotland) Regulations 2006. Our audit work has been undertaken so that we might state to the charity’s members those matters we are required to state to them in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity and the charity’s members as a body, for our audit work, for this report, or for the opinions we have formed.

Fife Coast and Countryside Trust would like to thank the individuals, community groups, organisations, partners and funders who have supported the work of the Trust during the last year.
