Basement Theatre

Basement Theatre Hire

The Basement Theatre is situated, (as the name suggests) in the Basement of North East Scotland College. It can accommodate 110 of an Audience but if the front of house Technicians Desk is used, this reduces the Capacity to 98. The seating is retractable.

The Theatre has four lighting bars with a mixture of LED and 500 watt lamps. We have 4 dimmer packs that can deliver 24 outputs directly to our lighting bars. These are controlled by DMX. The lighting Bars are also wired for DMX. Some of the LED lights are moving heads that have two gobo wheels. One with 7 gobos and the other with 8. The gobos are interchangeable. We currently use My DMX2 software to control our lighting.

The theatre is also a 7.1 surround sound Cinema and the sound system can also be used for Theatre production. If this is not suitable for the production, we also have a selection of Active or Passive PA systems that can be used. The projection Cyclorama is 8metres x 3.5 metres. This has been used in the past to project backdrops for Drama Productions. The Projector is an Epson EBG6650W, 6000 Lumens, and Widescreen 16:10. We also have installed an Epson EB685 short throw projector.

The performance floor is 10m x 6m and is Black Harlequin. We also have Unistage portable staging that can cover most of this area. Apple Mac computer with Pro Tools, Logic Pro X and Sibelius Ultimate.

Our lighting stock consists of:

- 4 x 500w Fresnel
- 4 x 500w Profiles
