#### 1. Introduction

North East Scotland College (NESCol) is committed to ensuring all clients and customers receive the best possible service. The College monitors stakeholder complaint feedback and ensures any lessons learned are actioned to improve its services. Reports measuring the College's complaints handling performance will be published online quarterly and issued to the Leadership Team.

NESCol complaints handling procedures are subject to regular review and alteration as required. This could be as a result of stakeholder experiences, internal changes or external initiatives. The College is a member of the sector Complaints Handling Advisory Group, operating with the College Development Network (CDN) and in association with the Scottish Public Sector Ombudsman (SPSO).

NESCol is an equal opportunities College therefore all complaints are administered in compliance with the Data Protection Act 2018, The General Data Protection Regulation (GDPR) and Freedom of Information (Scotland) Act 2002.

## 2. Quarterly Trends

For this quarter, NESCol received 12 complaints. The majority of complaints made are Customer Care Related (C1). Common themes regarding the cause of complaints are:

- Diversity & Equality
- Staff conduct
- Funding / Bursary

The pie chart to the left shows the percentage of complaints received for each complaint category. The pie chart to the right shows a breakdown of the percentage of complaints received this quarter for each campus. Of the complaints received this quarter, Aberdeen City received 7, Fraserburgh received 2 and Altens received 3.

## 3. Impact on Service Delivery

Upon closing a complaint, the quality team request details of any lessons learned or actions for completion (where applicable) from the relevant departments. The feedback received from stakeholders through the complaints process can alter our service delivery and highlight areas for improvement in order to better our practices. The below example/s from this quarter highlights the value of stakeholder feedback.

## Improving communication from Curriculum Managers to students

Complaints were received regarding the communication from Curriculum Managers to students regarding securing a place on their chosen course, and around the confrontational nature of communication with a student. The actions that have been raised in response to these complaints focus on the need to maintain clear and carefully thought out communication with students so that it comes across as supportive rather than confrontational.

## Improving timetables

A complaint was received regarding the process of timetabling classes, especially if there is a change between face-to-face and online classes. As a result of the lessons learned from this complaint, the curriculum teams will review timetables to ensure classes are timetabled correctly and that students are notified of changes in a timely manner.

### 4. Further Education Complaints Performance Indicators – Definitions

The following definitions for stage 1, stage 2, and escalated should be consistently applied throughout all indicators.

#### Stage 1

This means those responded to at stage 1 (frontline resolution). This does not include those escalated from stage 1 to stage 2. These will be counted in the escalated complaints. This includes those where the extended timeline (i.e. + additional 5 working days) was used.

#### Stage 2

This means those responded to at stage 2 (investigation). This includes those where the extended timeline (i.e. + additional 20 working days) was used.

This refers to those complaints considered directly at stage 2 for the following reasons:

- \* straight away by complainant (this refers to customers who did not wish to be dealt with at stage 1 and wished to go straight to stage 2)
- \* straight away by the College, or within a day or so after due consideration (i.e. College recognised complex, serious, high risk nature of the complaint and felt it was not suitable to be considered at stage 1)

#### **Escalated**

This means those escalated from stage 1 to stage 2.

This refers to those complaints where the complainant remains dissatisfied with the outcome of the frontline resolution and have requested that their case be escalated to stage 2 for investigation.

This includes those complaints where escalation was required because frontline resolution timescales were not met (i.e. 11 working days or more). Therefore automatic escalation rules apply.

#### Population

This figure will represent the total student population. For example the number of matriculated students at an agreed date.

The College, when reporting on the complaints handling KPIs for each quarter adheres to the above definitions to ensure consistency and accuracy.

## 6. Escalation and Extension Rationale

In this quarter, one complaint was escalated to stage 2. The complaint was escalated in order to allow staff further time to investigate the details of the complaint.

In this quarter, there was one extension granted to a frontline complaint to allow for more time to fully investigate the complaint.

## 7. Complaints Handling Feedback Questionnaire

Following the receipt of a response to their complaint, complainants are sent a complaints handling questionnaire so they can indicate their satisfaction with the different components of the complaints process.

This is monitored on a regular basis and the quality team review feedback received in relation to the handling process. This can influence future practice and alterations to the procedure followed.
