

Zahra's Story

I am from Afghanistan, from a village in the province of Logar.

I am from Afghanistan, from a village in the province of Logar. However, due to the war and the Taliban, we were in danger. My daughter and I faced many problems in Iran. The cost of living was very high, and my daughter weighed heavily on me every day. As an Afghan, I did not have the right to study there, and even if I had, I would have had to pay a high cost.

So, I decided to emigrate. That is when my daughter and I could find peace and the life we deserved. It took three years for me to be able to come to Scotland.

After arriving, I was very happy because I had made friends at college and in my knitting class, who welcomed me with kindness. I would like to continue my education and serve the people.

I have made friends at college and in my knitting class, and they are like a family to me. I am grateful for their support and kindness.

I am very happy here because I have made friends, and I can feel safe. I want to give back by serving the people and contributing to my community.

I don't want to go back there. But I do miss my mother, who I love dearly. I want to visit her someday.

My dream is to continue my education and work hard so I can build a better future for myself and help others.

MY DREAM:

To continue my education and serve the people.
