

## BEYOND LEVEL 0 – CLUB UPDATE 6.8.21

The Scottish government has made the decision to move beyond level 0 on Monday 9th Aug and here's how it will affect your visits to the main clubhouse. You will still be expected to wear your facemask when moving around the building as it is still law, however, you will not have to social distance when seated at your table, there are no limits on table sizes and you can order drinks from the bar rather than table service. The male and female toilets will be reopened as will the cadet room. We also still require you to complete Track and Trace for each visit.

Whilst this is great news we still ask that you respect each others space and always follow the guidance of the staff when visiting. We have prided ourselves on being a covid safe environment for the past 18 months so lets keep it a safe place for all members to visit.
