Pour water directly onto the stain then blot using white paper towels, repeat this process until the paper towel no longer absorbs the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

In case of stubborn stains, softly rub a bar of household soap on the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

Large stains may require dry cleaning.

High Performance

- Excellent durability
- Easy cleanability
- FibreGuard = fresh looking fabric

Stain Free Technology

- Tackle stains easily
- Remove ballpoint pen, coffee, red wine, ketchup, mud etc.
- Low maintenance
- Child friendly
- Pet friendly

Aurora

BYBLOS CLEANING AND MAINTENANCE INSTRUCTIONS

AQUACLEAN TECHNOLOGY

ADVANCED UPHOLSTERY PROTECTION

CLEAN WITH WATER IN THREE EASY STEPS

1. Remove any excess product that has spilled on the fabric.

2. Apply water to the stain, either directly or using paper tissues or an absorbent cloth, without making the upholstery too damp. Wait for a few seconds.

3. Press the stain with the paper tissues or cloth, then gently rub the fabric with circular movements. If the stain does not disappear completely, repeat the process as many times as necessary.

The cleaning technology eliminates small wine stains, coffee, food and even some markers without resorting to washing with soap, however large stains may require dry cleaning.

MAINTENANCE

For routine maintenance of your fabric we recommend vacuuming of the entire surface using a domestic vacuum cleaner with brush adaptor.

Deco

SEKERS introduces DECO, a collection of five elegant designs with a co-ordinating sheer inspired by Miami Beach's art deco historic district. Welcoming the 1920's and 30's design style that is characterised by geometric shapes and bold colours, Deco has a refined drape and attractive metallic shimmer that makes this collection a handsome addition to any interior.

Woven in 100% Trevira CS, an inherently fire-retardant fibre, Deco is well suited to contract drapery, bedding and accessory applications meeting the necessary UK, USA and IMO standards. This washable collection is the ideal choice for the designer specifying for the hospitality, leisure and marine markets.

KIBOKO CLEANING AND MAINTENANCE INSTRUCTIONS

AQUACLEAN TECHNOLOGY

ADVANCED UPHOLSTERY PROTECTION

1. The AquaClean treatment system covers every single fibre with an invisible molecular coating.

2. Dirt doesn't penetrate the fabric's fibres.

3. The stains just disappear on applying water.

4. Simply remove with a lint free white cloth.

CLEAN WITH WATER IN THREE EASY STEPS

1. Remove any excess product that has spilled on the fabric.

2. Apply water to the stain, either directly or using paper tissues or an absorbent cloth, without making the upholstery too damp. Wait for a few seconds.

3. Press the stain with the paper tissues or cloth, then gently rub the fabric with circular movements. If the stain does not disappear completely, repeat the process as many times as necessary.

The cleaning technology eliminates small wine stains, coffee, food and even some markers without resorting to washing with soap, however large stains may require a mild non-alkali detergent, please spot test in an inconspicuous area first. Do not dry clean.

MAINTENANCE

For routine maintenance of your fabric we recommend vacuuming of the entire surface using a domestic vacuum cleaner with brush adaptor.

Kiboko

sekers introduces KIBOKO, an impressive addition to our Aquaclean range. Aquaclean is an advanced nano technology finish which helps protect the fabric against spills and stains without having to resort to specialist cleaning. Kiboko resists the toughest of stains, from red wine to permanent marker, without compromising on that unique texture.

Korowai

sekers introduces KOROWAI, a collection inspired by the pristine rainforests of West Papua New Guinea. Drawing inspiration from gently swirling water found in quiet bends of a meandering river, raindrops striking the surface of a stream during a tropical downpour and the structures of the rainforest itself, including the dimensional texture of tree bark and the subtly dimpled texture of vines native to the island.

SEKERS

Woven in 100% inherent FR polyester, the Korowai collection is suitable for all aspects of the contract market from hotels to cruise ships. Meeting all relevant UK and IMO standards for curtains, accessories and bedding, as well as German, French and US standards, this washable collection is the ideal resource for any contract application.

ODISHA CLEANING AND MAINTENANCE INSTRUCTIONS

AQUACLEAN TECHNOLOGY

ADVANCED UPHOLSTERY PROTECTION

1. The AquaClean treatment system covers every single fibre with an invisible molecular coating.

2. Dirt doesn't penetrate the fabric's fibres.

3. The stains just disappear on applying water.

4. Simply remove with a lint free white cloth.

CLEAN WITH WATER IN THREE EASY STEPS

1. Remove any excess product that has spilled on the fabric.

2. Apply water to the stain, either directly or using paper tissues or an absorbent cloth, without making the upholstery too damp. Wait for a few seconds.

3. Press the stain with the paper tissues or cloth, then gently rub the fabric with circular movements. If the stain does not disappear completely, repeat the process as many times as necessary.

The cleaning technology eliminates small wine stains, coffee, food and even some markers without resorting to washing with soap, however large stains may require a mild non-alkali detergent, please spot test in an inconspicuous area first.

MAINTENANCE

For routine maintenance of your fabric we recommend vacuuming of the entire surface using a domestic vacuum cleaner with brush adaptor.

**aqua
clean**
TECHNOLOGY

Odisha

sekers introduces ODISHA, a collection of two beautiful textures available in a versatile palette including rich jewel tones and sophisticated neutrals. The AquaClean advanced nano technology helps protect the fabric against spills and stains without having to resort to specialist cleaning. Odisha is supplied with Crib 5 flame retardant backing making it suitable for upholstery and accessories within the hospitality, leisure and marine markets.

ROSSALL

Rossall

SEKERS introduces ROSSALL, a collection of 4 distinctive designs woven in the UK from 100% British wool. A natural, renewable and biodegradable fibre, wool is renowned not only for its warmth and comfort but also for its unique resilience and strength. With a supple drape and luxurious hand, Rossall is eminently suitable for both drapery and bedding applications.

Pour water directly onto the stain then blot using white paper towels, repeat this process until the paper towel no longer absorbs the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

In case of stubborn stains, softly rub a bar of household soap on the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

Large stains may require dry cleaning.

High Performance

- Excellent durability
- Easy cleanability
- FibreGuard = fresh looking fabric

Stain Free Technology

- Tackle stains easily.
- Remove ballpoint pen, coffee, red wine, ketchup, mud etc.
- Low maintenance
- Child friendly
- Pet friendly

Toledo

SEKER'S introduces TOLEDO, a sumptuous polyester velvet which boasts a textured appearance. Supplied with Crib 5 flame retardant backing and FibreGuard, an advanced nanotechnology which permanently protects the fabric against spills and stains without having to resort to specialist cleaning. Toledo is the perfect choice for the hospitality, leisure and marine markets.

Pour water directly onto the stain then blot using white paper towels, repeat this process until the paper towel no longer absorbs the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

In case of stubborn stains, softly rub a bar of household soap on the stain.

Finish by adding water and gently rubbing with a microfiber cloth in a circular movement. Continue until the stain vanishes.

Large stains may require dry cleaning.

High Performance

- Excellent durability
- Easy cleanability
- FibreGuard = fresh looking fabric

Stain Free Technology

- Tackle stains easily
- Remove ballpoint pen, coffee, red wine, ketchup, mud etc.
- Low maintenance
- Child friendly
- Pet friendly
