Deco

SEKERS introduces DECO, a collection of five elegant designs with a co-ordinating sheer inspired by Miami Beach's art deco historic district. Welcoming the 1920's and 30's design style that is characterised by geometric shapes and bold colours, Deco has a refined drape and attractive metallic shimmer that makes this collection a handsome addition to any interior.

Woven in 100% Trevira CS, an inherently fire-retardant fibre, Deco is well suited to contract drapery, bedding and accessory applications meeting the necessary UK, USA and IMO standards. This washable collection is the ideal choice for the designer specifying for the hospitality, leisure and marine markets.

Korowai

sekers introduces KOROWAI, a collection inspired by the pristine rainforests of West Papua New Guinea. Drawing inspiration from gently swirling water found in quiet bends of a meandering river, raindrops striking the surface of a stream during a tropical downpour and the structures of the rainforest itself, including the dimensional texture of tree bark and the subtly dimpled texture of vines native to the island.

SEKERS

Woven in 100% inherent FR polyester, the Korowai collection is suitable for all aspects of the contract market from hotels to cruise ships. Meeting all relevant UK and IMO standards for curtains, accessories and bedding, as well as German, French and US standards, this washable collection is the ideal resource for any contract application.

Yuma

sekers introduces YUMA, a collection of four elegant designs with a co-ordinating sheer inspired by the haunting, time worn textures found in abandoned mining towns throughout the Rocky Mountains. With a refined drape and subtle metallic shimmer, Yuma is a handsome addition to any interior and is an ideal choice for the designer specifying for the hospitality, leisure and marine markets.

Woven in 100% Trevira CS, an inherently fire retardant fibre, the YUMA collection is suitable for all aspects of the contract market from hotels to cruise ships. Meeting all relevant UK & IMO standards for curtains, accessories and bedding as well as German, French and U.S. standards, this washable collection is the perfect selection for any contract application.
