

# Wish

**sekers** introduces WISH, a collection comprising two complementary designs, Tiana and Naveen.

Tiana presents a unique textured design that softly blends colour with a subtle lustrous thread shimmering within its weave. It's partner design Naveen offers an understated monochromatic weave, making it the perfect complement to Tiana. Both designs are available in a broad palette of 14 colours, from soft, refined neutrals to rich, bright bewitching shades, Wish provides endless opportunities for creative combinations.

Crafted to perform in the most demanding environments, both designs deliver exceptional durability. Meeting the highest UK, USA and IMO industry standards and with a 50,000 Martindale, Wish is perfectly suited for Contract Marine, Hospitality and Leisure environments.

Enhanced with Aquaclean's advanced stain resistant nano technology, providing protection against the toughest stains and spills. Adding to its appeal, Naveen also meets Global Recycling Standards, with a 72% recycled composition, offering a sustainable option for environmentally conscious projects.

CLEANING & MAINTENANCE INSTRUCTIONS

AQUACLEAN® TECHNOLOGY

ADVANCED UPHOLSTERY PROTECTION

- |  |  |   |  |
|--|--|---|--|
| 1. The AquaClean treatment system covers every single fibre with an invisible molecular coating. | 2. Dirt does not penetrate the fabrics fibres. | 3. The stains just disappear on applying water. | 4. Simply remove with a lint free white cloth. |
|--|--|---|--|

WATER CLEANING IN THREE SIMPLE STEPS

**Aquaclean®** Technology enables you to get rid of small stains such as wine, coffee, food and even most marker pens without having to wash with soap or detergent. However, large stains may require a mild non-alkali detergent. Please spot test in an inconspicuous area first.

Scan QR to find out more about Aquaclean® cleaning

- 1 Remove any excess residue from your upholstery .
- 2 Apply water over the stain, either directly or using a damp cloth, then wait a few seconds.
- 3 Finally, press down with the damp cloth and rub gently over the fabric in circular movements. If the stain does not come off completely (especially dried in stains) repeat the process as required.

MAINTENANCE

For routine maintenance of your fabric, we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.
