

MEDICAL

SP Technology Automation & Robotics

Multiple part inhalers have been assembled by SP Technology for over 30 years. These systems have included full assembly of device counters, full functional and quality checking, assembly, labelling and printing at speeds between 40 and 200 parts per minute. Our solutions to the medical device industry are vast, including the complete assembly of needle free injection devices, surgical instruments and catheters.

Key features and equipment:

- Auto loading from moulding systems
- Functional and assembly checking
- Capping
- Final packaging
- High accuracy labelling using SP designed labelling system (± 0.1 mm)
- Full assembly including complex counters
- Auto buffer feeding from bowl feed & hoppers
- Output - 40 to 200 ppm
